

M/s. Maharani Innovative Paints Pvt. Ltd. has Award Winning Eco Green Technology of Paint Sludge Recycling.

MIPPL undertakes the recycling of paint sludge by its eco-friendly innovative technology that converts it into industrially useable primers.

Paint Sludge can also be converted / recycled to floor coatings, structural primers and anti-corrosive metal coatings as per need or specification of the user.

This technology is sponsored by M.O.E.F. for implementation in industrial clusters as a Green Technology for Recycling of Paint Sludge. We have been awarded for this unique eco-friendly & innovative technological development.

Awards

- "Innovation for India Awards 2008" from Marico Innovation Foundation, Mumbai for our above Technology Jury headed by Dr. R. Mashelkar March 2008.
- 'Innovation of the Year Award,' by Faridabad Small Industries Association - 2008.
- 'Innovation of the Year' Award, by Faridabad Chamber of Commerce & Industries - 2008.
- 'Innovation Award on Green Technology' by Manufacturers Association, Faridabad - June 2008.
- 'Corp-Excel Awards (National MSME Excellence Awards) 2008' by Corp Bank for excellence in Management based on the Innovative Clean Technology, Presented by Sh. Pranab Mukherjee December 2009.
- "Parivartan 2011 Award" from Carbon Outlook - March 2011.
- Skoch Achiever Award 2014 from Skoch Group - March 2014.
- 'Best SME for Innovation Award' by Yes Bank - 2014.
- '2nd SMEs Excellence Award 2014' by The Associated Chambers of Commerce and Industry of India November 2014.
- "5th National Award for Technology Innovation" by the Ministry of Chemicals & Fertilizers, Government of India February 2015.

Key Customers

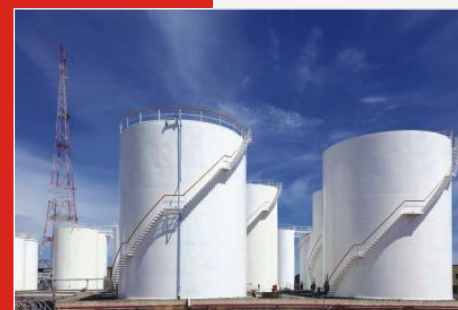

KISEKI 奇跡

Performance & Protective Coatings

Manufactured by :
Maharani Innovative Paints Pvt Ltd

In Technical Collaboration with
Dai Nippon Toryo Company Ltd., Japan

Industries Serviced

Chemical, Fertilizers & Cement
Agro chemicals, Fine chemicals, Fertilizer, Cement
Specialty chemicals and Pharmaceuticals manufacturing plants

Infrastructure
Airport, Bridges
Metro Rail Projects, Stadiums

Metals
Aluminum, Copper
Zinc & Steel manufacturing & processing plants

Oil & Gas
Off-Shores Platforms, Pipeline
Refineries, Rigs, Jetties

Power
Hydel Projects and Windmill
Nuclear Power
Thermal Power

Maharani Innovative Paints Pvt Ltd

About Maharani Innovative Paints

Maharani Innovative Paints Pvt. Ltd. is operating since 1986. An illustrious industrial paints and allied products' manufacturer that adheres to international quality standards.

Maharani Innovative Paints has three manufacturing units namely at Prithla, Sitarganj & Pune for Industrial Paints, Powder Coating, Primers & other Allied Paints.

Awarded ISO/TS 16949, ISO 14001 & OHSAS 18001.

Maharani Innovative Paints Pvt. Ltd. has entered into a technical collaboration agreement with M/s. Dai Nippon Toryo Company Ltd., Japan. This technical collaboration has improved technology of industrial paints manufactured by Maharani Innovative Paints Pvt. Ltd. and has put the company on the international platform.

Maharani Innovative Paints Manufacturing is supported by :-

- Research and Development Team that is fully equipped with all the modern testing facilities and excellent skilled manpower to develop products as per customer's and market specification.
- An efficient Technology Support Team that is dedicated to provide their assistance to the customers in using the products with maximum ease and utility.
- The Marketing and Sales Team that have a wide network all over the country to cater the customer's requirements.

Our Vision..

Global Organization Living with its Values to Create Excellence

Our Mission..

Strive to Ethically Grow 10 Times by Creating Global Benchmarks in all performance parameters focussing 100% Quality, Cost & Delivery.

Dai Nippon Toryo Company Ltd., Japan

About DNT

DAI NIPPON TORYO COMPANY LTD (DNT) Japan was established in 1929, is having its head quarters in Osaka, Japan. DNT is one of the largest automotive paints manufacturing companies in the world. The company has various manufacturing Plants and is catering to the requirements of automotive manufacturing giants having their production bases across globe.

DNT is pioneer in the field of Heavy Duty, Industrial, Automotive, Refinishing, Protective Coatings; Marine & Architectural Coatings in additions to Powder Coatings & Home use Paints. DNT has become the leader in the field lapped corrosion prevention coating that protects iron structures from rust, water-borne coating for buildings, and powder coating - all of which are friendly to the environment.

Dai Nippon Toryo is actively engaged in a wide range of fields, from those closely related to everyday life, including electrical home appliances, information-related equipment, to those supporting society's infrastructures, including the key landmarks viz: Shinkansen "Bullet" Express Line, Tokyo Sky Tree, Tokyo gate bridge, Tokyo station city, Hospital coating system, High-rise buildings, Gymnasium wooden flooring, Noevir stadium kobe and large-scale bridge construction.

DNT is a corporation that colors the environment, supplying products with consideration for nature, community and lifestyle under their philosophy of providing a full and healthy living environment.

KISEKI 奇跡 Product Details

Product Name	Finish	Features	Uses
Kisoxy Finish (3:1)	Colors : Smoke Grey, Black, White, Golden Yellow, PO Red	A high performance 2 Pack Epoxy Finish Coating to meet stringent requirements	Structural steel, Pipelines, Storage tank exteriors, Pulp & Paper mills, Chemical Plants, Gas Plants, Oil Refineries, Power Plants, Fertilizer Plants, Sugar Mills, Food & Pharmaceutical units, Mining & Machinery Units. Also Suitable for use on Concrete Walls & Columns.
Kisoxy Primers (3:1)	Colors : Grey / Red Oxide	A high quality 2 Pack Epoxy Primers used for high build up and anticorrosive protection.	Structural Steel, Pipelines, Storage Tanks, Equipments etc. of Refineries, Petrochemical Plants, Fertilizer Plants, Power Generation Plants.
Kisoxy Zinc Rich Primer (3:1)	Colors : Grey	A high quality 2 pack Epoxy Primers enriched with metallic zinc for high build up and protection	Structural Steel, Pipelines, Storage Tanks Exteriors etc. of Refineries, Petrochemical Plants, Fertilizer Plants, Power Generation Plants, Mining facilities & Bulk handling equipments.
Kisothane Finish (4:1)	Colors : Smoke Grey, Light Grey, Black, White, Golden Yellow, PO Red	A high performance 2 pack aliphatic acrylic PU Finish Coating with excellent gloss to meet tough requirements.	Oil Refineries, Petrochemical Plants, Power Plants, Fertilizer Plants, Chemical Plants, Chemical Wagon Exteriors, Transportation Industries, Offshore Structures, Infrastructure facilities and other Industrial installation. Recommended for use in new construction & maintenance services over properly primed surfaces.
Kiso ZP Primer	Colors : Grey & Red Oxide	A Single pack Premium quality steel primer for exterior & interior surfaces subjected to humidity, condensation, marine & costal environment.	Bridges, Cranes, Towers, Equipment, Tanks etc. and specially as a primer on general structural steel. It can be overcoated with conventional as well as high performance top coats.
Kiso ROZC Primer as per IS 2074	Color : Red	A general purpose anticorrosive protection primer for exterior and interior surfaces. Conforms to IS 2074	Steel surfaces subjected to humidity, condensation & Industrial environment. It can be overcoated with General synthetic Top coats & Aluminium Paints.
Kiso R/O Metal Primer	Color : Red	Premium quality primer with Zinc Phosphate anticorrosive pigment for metal surfaces to take care of atmospheric corrosion due to salty humid conditions.	Metal surfaces subjected to humidity & other environmental conditions. This enhances adhesion of subsequent synthetic enamels and other coatings.
Kiso Etch Primer (1:1)	Color: Yellow	A two pack protection primer for non ferrous surfaces.	Aluminium and aluminium alloys, galvanised and zinc sprayed metal, tin plate, chromium and cadmium plating, nickel etc. It is also used for promoting adhesion on plastic sheets and resin laminates.
Kisotherm 250 ° to 600 °	Colors : Silver, Black	A single pack high performance coating based on Silicon Resin for protection of Steel at elevated temperatures of 250 ° to 600 °	Chimneys, Condensers, Stacks of Industrial Plants, Furnace Equipment, Reaction Vessels, Hot metal stacks, Kilns, Flues, Exhaust systems, Hot pipes and similar areas exposed to dry heat attack.
Kisomin Finish as per IS-2932	Colors : Black, White, Golden Yellow, PO Red	A premium professional quality paints with uniform appearance and long lasting properties	Metals, Plasters, Concrete, Gypsum wall boards, Wood & hard boards.
Kisomin Aluminium Finish (88:12)	Color: Aluminium	A Two Pack, Air Drying, Synthetic Resin Based Aluminium Finish	All types of Metals
Kisowood Sanding Sealer	Sealers	A Fast Setting Solvent Based NC Wood Filler.	Cabinet makers, wood decorators etc. to fill cracks, splits, holes, surface defects and imperfection in all types of wood.
Kisowood Lacquer	Glossy, Satin, Zero Matt	Transparent NC Clear Coat with Excellent Coverage, Levelling and Good Softness To Touch.	All types of wood to get the desired gloss level, smooth finish and stain free performance.
Kiso Thinners	Epoxy, PU, NC, GP, Stoving, QD, Universal & Speciality Thinner	A High Quality Moisture Free True Thinners For Epoxy, PU, Stoving, Nitrocellulose Base, Alkyds, & Enamel Paints.	Used to improve the flow in paint system and provide excellent levelling properties. Also used in cleaning of equipments.
Kisothane 2K Clear	Automotive	A High Quality Clear Coat Offers Excellent Aesthetics & Gloss, Appearance and Tough Performance.	Used as a protective Top coat on metal parts like Bus Body & for all kind of Automotive metal and plastics parts.
Kisothane 2K Finish	Automotive	2 Pack High Gloss Paints for Automotive and Refinishes with Outstanding Appearance, Weatherability and Good Chemical Resistance.	Top coats on metal and Plastics, Bus Body, Chassis, etc. Specially Designed for paint repairs. It is easy to apply, sand and offers good Film built.
Kisothane 2K Primer	Automotive	2 Pack Fast Drying Primer Surface with Excellent Adhesion, Hiding, Film Builtup, Smoothness & Recoatability. Easy to apply & Sand.	Automotive Metal Components, Plastics And Refinishes Like Bus Body, Chassis, etc. Specially Designed for paint repairs.
Kisothane Hardner	Automotive	Aliphatic & Aromatic Type	Multi functional low viscosity high flexibility hardners with rapid drying property, and Excellent performance property.
